

Résumé

Suleyman Farajli

basic info

Email: suleyman@farajli.net

Telephone: Censored

Website: farajli.net

Git server: git.farajli.net

Github: github.com/sfarajli

I'm interested mostly in systems and application programming.

Workflow

I personally run and prefer GNU/Linux as my OS but, I can use Microsoft Windows and most other Unix based Operating Systems such as MacOS or BSD distributions.

technical skills

Computer Languages

Programming: C, Golang, Python, x86_64 assembly

Scripting: Posix shell

Markup: L^AT_EX, HTML, CSS

General IT

Linux administration, git, github, basic networking, nginx, basic docker and virtualisation, most of the other skills you'd expect.

Projects

github.com/sfarajli/futils: Core operating system utilities in C.

github.com/sfarajli/slcf: My unix/xorg configuration along with some useful shell scripts.

github.com/sfarajli/farajli.net: Source tree of my personal website.

github.com/sfarajli/marp: A stack-based programming language written in go.

github.com/sfarajli: Forks of different software.

Human Languages

Native: Azerbaijani, Turkish

Fluent: English

Basic: French

education

French-Azerbaijani University (2022)
